Dear Mr. Weisberg,

I have been studying the assassination of John F. Kennedy for two years, and would like some advice from you, since you are the foremost critic of the official version.

First, I would like to know whether the Warren Commission and the Select Committee on Assassinations' many volumes of testimony and exhibits can be obtained on microfilm, since the books are now out of print.

Secondly, I would like some advice on obtaining copies of your Whitewash books as well as Post-Mortem and Oswald in New Orleans.

I would greatly appreciate a reply.

Sincerely,

Ulric Shannon, 15
